Update on the Courthouse, Jimmy Cowart talked to Mr. Douglas with Contech, stayed that they had come in the Courthouse last week and all heating units are working except three and those are the ones the insurance has to look at and see if the reason they are no longer working is from water damage or what, but the Courthouse is drying out so maybe they will be able to get in there next week and get started taping and texturing. Also, the Water Pipes that supply the water to the upper floor, that caused the problems in the first place are shut off anyone could turn them on accidentally, so he highly recommended that we go in there and cap all of them off.
